
IMPORTANT INFORMATION TO POLICYHOLDERS:

An “insurance producer” is a person who represents an insurer in the sale, solicitation or negotiation of coverage issued by the insurer. The producer may be an employee of the insurer or an agent or other third party who represents the insurer.

In the sale and placement of its insurance products, MGIC only uses insurance producers who are its employees. MGIC is the sole source of compensation of its employees for the sale and placement of insurance and MGIC’s employees represent only MGIC and do not represent mortgage lenders, owners and servicers (MGIC’s customers). These insurance producers provide services to MGIC’s customers on behalf of MGIC.
