

Puerto Rico Underwriting Summary

EFFECTIVE
JULY 13, 2023

This summary highlights our most common loan programs. It does not replace our Underwriting Guide, which provides details on our guidelines and requirements (mgic.com/uwguide).

We do not approve loans for mortgage insurance based solely on a response obtained from Agency automated underwriting systems (Agency AUS), Fannie Mae's Desktop Underwriter® (DU®) and Freddie Mac's Loan Product Advisor®.

We allow certain efficiencies for loans that have a valid DU or Loan Product Advisor response.

MGIC Go! streamlines MI for loans with a valid DU Approve/Eligible or Loan Product Advisor Accept/Eligible response.

These loans must meet requirements stated in our Underwriting Guide (UWG), Section 1, Doing Business with MGIC and Section 2, MGIC Go! Loans.

Follow Findings/Feedback requirements for:

- Documentation
- Tradelines, credit history
- Borrower contribution, including gift funds
- Reserves
- Other criteria

Apply applicable MGIC Go! overlays (page 2 in this document); otherwise, refer to the respective Agency selling guide for requirements not provided in the Findings/Feedback.

Our Standard Underwriting Guidelines apply to loans that are not processed through an Agency AUS (otherwise known as manually underwritten loans) or loans that do not qualify for MGIC Go! streamlined underwriting.

These loans must meet requirements stated in UWG Section 1, Doing Business with MGIC, and UWG Section 3, Standard Loans.

For standard loans, where indicated in the Guide, you may follow standard Agency guidelines and Agency selling guide documentation requirements (UWG 1.03.03), along with any specified MGIC guidelines and requirements.

Throughout this summary, we will refer you to supporting information in our Underwriting Guide. For example, (UWG 3.06) means you will find related information in Section 3, subsection 6 of the Guide. Changes from the previous version of our Guide are indicated in **purple**.

 - It has been seasoned for at least 12 months prior to the loan application date AND

Construction-Permanent Transaction (UWG 3.06.03)

Single-Close Transactions (UWG 3.06.03a)

Single-close (or one-time close) transactions include both the interim construction financing and the permanent mortgage financing. Interim financing may involve a short-term, interest-only period whereby borrowers make periodic payments on the amount of funds drawn to date. The interim financing automatically converts to permanent financing upon completion of construction.

MGIC eligibility and premium rates are based on the terms of the permanent financing.

Follow our Standard Underwriting Summaries within this document and these guidelines:

- Use Purchase Transaction (UWG 3.06.01) guidelines when the borrower is not the owner of the lot as of loan closing date
- Use Rate-Term Refinance Transaction (UWG 3.06.02) guidelines when the borrower has legal ownership of the lot as of loan closing date
- When documentation is more than 180 days old and less than 12 months old as of activation date, we require:

Income and Employment (UWG 3.09)

Income stability is a key indicator of a borrower's ability to repay and stay current on a loan. Income fluctuation and trends, whether increasing or decreasing, deserve careful analysis when you are determining a borrower's monthly earnings.

<p>General Income Guidelines (UWG 3.09.01)</p>	<ul style="list-style-type: none"> - Minimum 2-year employment history <ul style="list-style-type: none"> - We'll consider shorter histories if the loan application demonstrates factors that reasonably offset the shorter history (for example, a borrower who has recently completed an undergraduate or graduate degree, a medical residency, or an apprenticeship and is beginning employment in their field) - Income histories less than 24 months require non-delegated underwriting (UWG 1.08) - Qualifying income should be likely to continue for 3 years after the note date
<p>Eligible Income See UWG 3.09.02 for a complete list of eligible sources of income.</p>	<p>Follow Agency guidelines and Agency selling guide documentation requirements for eligible income types listed in UWG 3.09.02, along with additional MGIC guidelines where noted.</p>

Assets (UWG 3.10)

The types of assets a borrower uses to complete the mortgage loan transaction contribute to the level of risk of the loan, and the verification of those funds is critical. Generally, assets earned or saved over time are associated with less risk as they establish a history of financial stability.

<p>Borrower's Own Funds (UWG 3.10.01)</p>	<p>Minimum borrower's own funds requirements are expressed as a percentage of Original Value, which may vary by property type and loan amount (see Standard Underwriting Summaries within this document). Our eligible asset type table (UWG 3.10.04) identifies acceptable sources for borrower's own funds that are used towards down payment, closing costs, pre-paid expenses and reserves.</p>
<p>Eligible Assets See UWG 3.10.04 for a complete list of eligible asset types.</p>	<p>All assets listed in UWG 3.10.04 are acceptable sources of funds for reserves (UWG 3.10.02) or to complete the mortgage loan transaction once borrower's own funds requirements have been met. Where indicated, they are eligible to meet borrower's own funds requirements (UWG 3.10.01).</p> <p>Follow Agency guidelines and Agency selling guide documentation requirements along with additional MGIC guidelines where noted.</p>
<p>Gifts (UWG 3.10.04b)</p>	<p>Follow Agency guidelines and Agency selling guide documentation requirements, MGIC Standard Underwriting Summaries within this document, and the guidelines below.</p> <p>Gift funds are an eligible source of funds toward the minimum borrower's own funds requirement, subject to the following:</p> <ul style="list-style-type: none"> - If the donor does not reside with the borrower: <ul style="list-style-type: none"> - Must be a 1-unit primary residence - Maximum DTI ratio: 41% - Minimum credit score: 720 - Maximum loan amount: \$726,200 - Fixed-rate mortgage or ARM with initial fixed period of at least 5 years - Ineligible: Subordinate financing - If the donor has resided with the borrower for the most recent 12 months and intends to continue to do so, provide: <ul style="list-style-type: none"> - Documentation supporting the most recent 12-month residency - A letter of intent to continue occupying the property signed by the donor

Credit (UWG 3.11)

We evaluate borrowers' willingness and ability to manage debt by reviewing their credit history.

Credit Report (UWG 3.11.01)

- Obtain a US credit report for each borrower on the loan application from data provided by at least 2 of the 3 national credit repositories: Equifax, Experian, or TransUnion
- Credit report inquiries within the most recent 90 days must be addressed by the borrower; if new credit was granted, verify terms and conditions

Credit Score (UWG 3.11.02)

A numerical rating representing a borrower's credit history, provided by a national credit repository

We rely on credit scores to determine mortgage eligibility and premium rates for borrowers with an acceptable traditional credit history.

Follow our Standard Underwriting Summaries within this document and these MGIC guidelines:

- A minimum of 2 credit scores is required for each borrower on the loan
- A credit score is considered usable and valid when a minimum of 3 traditional tradelines are reported, each with a minimum 12-month payment history
 - An authorized user account may be considered a valid tradeline if the borrower has been making the payments, and the payments have been paid as agreed for the past 12 months
- The **Borrower Indicator Score**, used to determine the Representative Credit Score, is determined using a minimum of 2 valid credit scores:
 - When 2 valid credit scores are provided, the lower score is the Borrower Indicator Score
 - When 3 valid credit scores are provided, the middle score is the Borrower Indicator Score
- The **Representative Credit Score**, used for underwriting and determining the premium rate, is the lowest Borrower Indicator Score among all borrowers on the loan (regardless of whether all borrowers have valid credit scores)
- Follow MGIC Underwriting Guidelines for traditional and/or nontraditional credit based on whether borrowers have valid credit scores:
 - When all borrowers on a loan have a valid credit score, follow Underwriting Guidelines for traditional credit (UWG 3.11.03)
 - When no borrower on a loan has a valid credit score, follow Underwriting Guidelines for nontraditional credit (UWG 3.11.04)
 - When 1 or more borrowers have a valid credit score, but 1 or more co-borrowers do not:
 - For borrowers with a valid credit score, follow Underwriting Guidelines for traditional credit (UWG 3.11.03)
 - For borrowers without a valid credit score, follow Underwriting Guidelines for nontraditional credit (UWG 3.11.04)
 - A borrower with no valid score is not considered in determining the Representative Credit Score

Traditional Credit (UWG 3.11.03)

Comprises recurring financial obligations reported to a credit reporting agency

- Review credit reports to determine if all borrowers:
 - Have a valid credit score (UWG 3.11.02) meeting our requirements
 - Meet our requirements for adverse credit (UWG 3.11.05)
- Reconcile all alerts in the credit report

Liabilities and Debts (UWG 3.12)

Debt-to-Income (DTI) Ratio (UWG 3.12.01)

The DTI ratio is a key factor in determining the borrower's ability to repay the mortgage obligation.

For calculation purposes:

- When qualifying your borrower for MGIC mortgage insurance, we do not require you to include the mortgage insurance premium in the DTI calculation
- Total Monthly Obligations = Monthly housing expense plus the monthly debt obligation (UWG 3.12.03)
- Total Monthly Gross Income = The sum of all income from eligible sources

$$\text{DTI Calculation} = \frac{\text{Total Monthly Obligations}}{\text{Total Monthly Gross Income}}$$

DTI Ratio %

Follow these guidelines:

- Our maximum DTI ratios vary by occupancy, loan type, loan amount and other characteristics (see our Standard Underwriting Summaries within this document)
- For transactions with a non-occupant co-borrower, the occupying borrower's DTI must meet our maximum DTI ratio requirements without consideration of the non-occupant co-borrower's income and obligations

Monthly Housing Expense (UWG 3.12.02)

[Follow Agency guidelines and Agency selling guide documentation requirements](#) and these MGIC guidelines.

The monthly housing expense is the sum of:

- Special assessments (if more than 10 monthly payments remain)
- Homeowners Association (HOA) fees

Note: When qualifying your borrower for MGIC mortgage insurance, we do not require you to include the mortgage insurance premium in the DTI calculation.

 - Installment loans paid off or down to 10 or fewer monthly payments
 - Revolving accounts paid off at or prior to closing

Appraisal (UWG 3.14)
